PROFESSIONAL SUMMARY

Full-Stack Developer with strong expertise in React, Node.js, Express, and MongoDB, specializing in building scalable, high-performance web applications. Passionate about crafting intuitive user experiences with Next.js, Redux, and Tailwind CSS, while maintaining clean, efficient, and maintainable code. Experienced in agile teamwork, API integration, and modern cloud deployment workflows.

PROFESSIONAL EXPERIENCE

Frontend Development Intern — CodSoft (Remote) — *Sept 2024 – Jan 2025*

- Collaborated with cross-functional teams to design and develop responsive web interfaces using React.js and Tailwind CSS.
- Translated Figma mockups into fully functional, pixel-perfect components improving usability and consistency.
- Integrated REST APIs for real-time data updates enhancing interactivity.
- Utilized Git/GitHub for version control and team collaboration.
- Optimized React performance reducing load time by 30%.

Full-Stack Developer — MyReader (EdTech Startup) — *Jan 2025 – May 2025*

- Designed and implemented key features that improved student engagement.
- Built modular React components and managed global state with Redux.
- Integrated RESTful APIs for seamless data flow between frontend and backend.
- Delivered scalable solutions that supported product growth.

Frontend Developer — Lokafy — *Jul 2024 – Dec 2024*

- Contributed to development of a global tour-guide marketplace.
- Enhanced booking workflow improving user experience.
- Implemented responsive UI components for better accessibility.

Full-Stack Developer — Rhics Tech — *Mar 2023 – Jun 2023*

- Built client-facing web applications using React, Node.js, and Express.

- Assisted in backend API development and integration tasks.
- Collaborated with designers to create responsive, appealing interfaces.

EDUCATION

Lagos State University, Nigeria — B.Sc. in Transport Management (Aug 2021 – Aug 2025 Expected)

SKILLS

Programming Languages: HTML, CSS, Javascript, Bash, Git, SQL, NoSQL. Frameworks, Platforms and Tools: React, Nextjs, MongoDB, Firebase, GitHub Actions, AWS, Heroku, Vercel, OpenAI, Claude. General: Monitoring and Observability, Performance Optimization, API Management and Development, Database Management, Incident Management and Response.

ACHIEVEMENTS

• HNG Tech (Lagos, Nigeria) — Top 5 Finalist, Software Engineering Track
• Built and deployed multiple personal and client projects using Next.js and Vercel emphasizing performance and clean UI/UX design.
